Amendments to the Claims

1. (Currently Amended) A method for reprinting a portion of ~~at least one~~ a previously printed document, the ~~at least one~~ document including a plurality of pages, the method comprising:

(a) querying a user regarding the portion ~~of the at least one document~~, the portion ~~of the~~
5   ~~at least one document~~ including ~~at least one~~ an erroneous page;

(b) instructing the user on loading ~~at least~~ a remaining portion of the ~~at least one~~ document into an inserter tray associated with a printer;

(c) automatically reprinting the portion ~~of the at least one document~~ on the printer to provide ~~at least one~~ a reprinted page for replacing the ~~at least one~~ erroneous page; and

10   (d) automatically merging the ~~at least one~~ reprinted page with the remaining portion ~~of the at least one document~~ by inserting the reprinted page from the inserter tray into the remaining portion.

2. (Currently Amended) The method of claim 1 wherein the querying step (a) further includes the step of:

(a1) querying the user as to whether an updated copy of the ~~at least one~~ document is available.

3. (Currently Amended) The method of claim 2 further comprising:

(e) if the updated copy of the ~~at least one~~ document is available, automatically identifying the ~~at least one~~ erroneous page;

(f) if the updated copy of the ~~at least one~~ document is not available, allowing the user to
5   identify the ~~at least one~~ erroneous page.

4. (Currently Amended) The method of claim 3 further comprising:

(g) determining whether ~~at least one~~ an error exists; and

(h) notifying the user of the ~~at least one~~ error.

5. (Currently Amended) The method of claim 4 further comprising:

(i) ejecting a portion of the remaining portion ~~of the at least one document~~.

6. (Currently Amended) The method of claim 4 wherein the ~~at least one~~ error includes a printer jam.

7. (Currently Amended) A method for reprinting a portion of ~~at least one~~ <u>a previously printed</u> document, the ~~at least one~~ document including a plurality of pages comprising:

(a) querying a user regarding the portion ~~of the at least one document~~, the portion ~~of the at least one document~~ including ~~at least one~~ <u>an</u> erroneous page;

5   (b) allowing the user to specify how ~~at least~~ <u>a</u> remaining portion of the ~~at least one~~ document is loaded <u>into an inserter tray associated with a printer</u>;

(c) automatically reprinting the portion ~~of the at least one document~~ <u>on the printer</u> to provide ~~at least one~~ <u>a</u> reprinted page for replacing the ~~at least one~~ erroneous page; and

(d) automatically merging the ~~at least one~~ reprinted page with the remaining portion ~~of~~

10   ~~the at least one document~~ <u>by inserting the reprinted page from the inserter tray into the remaining portion</u>.

8. (Currently Amended) A system for reprinting a portion of ~~at least one~~ a previously printed document, the ~~at least one~~ document including a plurality of pages, the system comprising:

software for querying a user regarding the portion ~~of the at least one document~~, the portion ~~of the at least one document~~ including ~~at least one~~ an erroneous page, instructing the user on loading ~~at least~~ a remaining portion of the ~~at least one~~ document, and for controlling the automatic reprinting of the portion ~~of the at least one document~~ to provide ~~at least one~~ a reprinted page for replacing the ~~at least one~~ erroneous page; [[and]]

a printer for automatically reprinting the ~~at least one~~ erroneous page; and

a tray in which the remaining portion is loaded the tray being associated with the printer and controlled by the software for automatically merging the ~~at least one~~ reprinted page with the remaining portion ~~of the at least one document~~.

9. (Currently Amended) The system of claim 8 wherein the software further queries the user as to whether an updated copy of the ~~at least one~~ document is available.

10. (Currently Amended) The system of claim 9 wherein the software further automatically identifies the ~~at least one~~ erroneous page if the updated copy of the ~~at least one~~ document is available and allows the user to identify the ~~at least one~~ erroneous page if the updated copy of the ~~at least one~~ document is not available.

11. (Currently Amended) The system of claim 10 wherein the software further determines whether ~~at least one~~ an error exists and notifies the user of the ~~at least one~~ error.

12. (Currently Amended) The system of claim 11 wherein the ~~at least~~ one error includes a printer jam.

13. (Currently Amended) The system of claim 11 further comprising:

a post fuser inserter for retaining the remaining portion ~~of the at least one document~~ loaded by the user.

14. (Currently Amended) A system for reprinting a portion of ~~at least one~~ <u>a previously</u> <u>printed</u> document, the ~~at least one~~ document including a plurality of pages, the system comprising:

software for querying a user regarding the portion ~~of the at least one document~~, the portion ~~of the at least one document~~ including ~~at least one~~ <u>an</u> erroneous page, ~~receives~~ <u>for</u> <u>receiving</u> an indication from the user as to how ~~the at least the~~ <u>a</u> remaining portion of the ~~at least~~ ~~one~~ document is loaded, and <u>for</u> controlling the automatic reprinting <u>of</u> the portion ~~of the at least~~ ~~one document~~ to provide ~~at least one~~ <u>a</u> reprinted page for replacing the ~~at least one~~ erroneous page; and

a printer for automatically reprinting the ~~at least one~~ erroneous page; and

a tray <u>in which the remaining portion is loaded the tray being associated with the printer</u> <u>and controlled by the software</u> for automatically merging the ~~at least one~~ reprinted page with the remaining portion of the ~~at least one~~ document.
